DETAILED ACTION

1. This action is in response to Applicant's submission filed 12/27/2006, responding to the 10/04/2006 Office action which detailed the rejection of claims 1-11 and 14-17. Claims 18 and 19 have been added. Claims 1-11 and 14-19 remain pending in the application and have been fully considered by the examiner.

Response to Arguments

2. Applicant's arguments, see pages 11 and 12, filed 12/27/06, with respect to drawing and specification objections and the rejection of claim 4 under 35 U.S.C. 112 have been fully considered and are persuasive. These objections and rejections have been withdrawn.

3. Applicants' arguments on pages 17 and 19 filed 12/27/06, regarding the rejection of claims 3 and 16 in particular, are persuasive in view of the top of page 30 of the specification. The prior art of record, does not disclose or suggest data definition (i.e. claim 3) through the use of an object managing table (i.e. claim 16). In view of the following Examiner's Amendment, the rejection of the claims under 35 U.S.C. 103 has been withdrawn.

EXAMINER'S AMENDMENT

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Art Unit: 2192

The examiner contacted Applicants' representative regarding allowable subject matter and suggested incorporating the features of claims 3 and 16 in the spirit of the disclosure at the top of page 30, into each independent claim. Applicants' representative then faxed a copy of the discussed claim amendments to the examiner (see attached claims). The examiner agreed and has adopted the proposed claims.

Authorization for this examiner's amendment was provided via a voicemail message on 2/16/2007 and confirmed in a telephone interview on 2/20/2007, both with Natalya Dvorson, Reg. No. 56,616.

The application has been amended as follows:

Please amend claims 1, 5, 10 and 16, and cancel claim 3 in accordance with the attached listing of claims.

Allowable Subject Matter

5. The following is an examiner's statement of reasons for allowance:

As pointed out on pages 17 and 19 filed 12/27/06, the prior art of record, do not disclose or suggest data definition (i.e. claim 3) through the use of an object managing table (i.e. claim 16) in combination with the features of the independent claims. These limitations are further described at the top of page 30 of the specification and Figure 4 of the drawings. The examiner indicated that this application would be in condition for allowance if the independent claims 1, 5, and 10 are amended to include features of claims 3 and 16 to include an object data definition

Art Unit: 2192

unit that defines and modifies objects provided in an object managing table stored in a data sharing unit. The above features, taken in combination with all remaining features of the independent claim are not taught or suggested by the prior art of record. The applicant agreed to amend the independent claims 1, 5, and 10 as indicated by the examiner. The dependent claims carry the limitations of each independent claim. Thus, all claims 1, 2, 4-11, and 14-19 are allowed

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
